WORK EXPERIENCE

2023 - Present

Lead Product Manager, Digital Banking - Business Accounts

EQ Bank (Equitable Bank)
Toronto

- Launched Canada's first fully digital commercial business banking product with onboarding, account management and money movement capabilities, achieving $25M+ in deposits in Year 1 against a projected ~$2B 5-year trajectory.
- Led the product vision and end-to-end MVP delivery across Web, iOS, and Android apps and go-to-market strategy to capture 10% market share of the target Canadian small business segment (~1M SMBs) within the first 5 years.
- Mentored a cross-functional team of PMs and developers, cutting release cycle time by 25% while leading OKR-setting, sprint planning, and quarterly roadmap reviews for the business banking portfolio.
- Coordinated stakeholder alignment by driving trade-offs between user experience and regulatory requirements efficiently, increasing team output by 30%, reducing time to market for new product features by 25%, and ensuring 100% compliance with regulations.

2022 - 2023

Product Manager, Digital Commerce

Thomson Reuters
Toronto

- Drove 40% increase in user acquisition by owning the full Trials analytics funnel, identifying drop-off points, pain patterns, and conversion gaps and translating insights into feature priorization that reduced customer-reported issues by 30%.
- Partnered with engineering and design teams to ship AI-driven personalization features, growing subscription sales by 20% MoM and reducing churn through targeted in-product experiences.

2019 - 2022

Product Owner, Digital Payments

Interac Corp.
Toronto

- Drove full product lifecycle delivery of a new digital payments solution MVP, coordinating across banking partners, merchants and multiple cross-functional teams to capture 5% of the target market segment.
- Implemented the testing and integration of Interac with Apple Pay and Google Pay for merchants and 8+ banks which resulted in >20% transaction growth rates MoM within the first year in market.
- Managed P&L for the full eCommerce portfolio by owning budget allocation, KPI tracking, and competitive analysis which improved forecast accuracy by 30% and enabled data-driven roadmap decisions.

2018 - 2019

Product Manager, B2C SaaS

DealTap (Remine Inc.)
Toronto

- Took a B2C SaaS real-estate platform from zero to launch by building the product roadmap and coordinating cross-functional delivery which drove a 30% lift in user engagement in a year.
- Implemented customer feedback loops that brought actionable insights into the product enhancement pipeline, improving feature adoption rate by 20% and increasing customer satisfaction NPS rate by 10 points.
