EXPERIENCE

DealTap Group Inc.
Jan 2018 - Present

Product Analyst / Project Manager
- Create user stories and PRDs with wireframes using JIRA & Axure RP to effectively communicate product features for developers to code and designers to create HiFi prototypes using Agile SDLC.
- Design analytical reports using Looker to monitor product performance and address areas for improvement to increase customer success and maintain competitive advantages.
- Efficiently managed 2 development teams by tracking velocity, scope, and sprint planning.

Ernst & Young LLP
July 2017 - Jan 2018

Staff Consultant, Advisory Services
- Effectively tested business and IT controls for clients to ensure compliance, recommended areas to mitigate risks, and improve the performance and security of the business.
- Evaluate the integrity of controls in place for leading technologies such as SAP, Oracle, NetSuite, SnapLogic, WorkDay and Salesforce for accurate data migration.

Manulife/John Hancock
May 2016 - Sept 2016

Business Intelligence Developer, Co-op
- Designed centralized dashboards and reports using MicroStrategy data visualizations to consolidate data which increased workflow efficiency and optimization by 40%.

Deloitte Inc.
Jan 2016 - April 2016

Business Technology Analyst, Co-op
- Facilitated a cloud implementation utilizing Guidewire to drive discoverability and sales.
- Managed project scope and efficiently adapted to changes and non functional requirements.
- Performed release testing to identify and categorize technological defects in JIRA to improve the quality and robustness of the software.

CIBC Technology
May 2015 - Aug 2015

IT Project Coordinator, Co-op
- Utilized Excel pivot tables and functions to generate weekly reports such as the migration of applications to Citrix 7.6 environment to provide key metrics and improve logistics.
- Redesigned portal user interface for enterprise software catalogue to reduce load time by 70% through multi-layer expandable tables.
